

The Masterplan

Deploying an infrastructure that underpins and future-proofs the sustainability pillar of the Agritech Business Park.

Customer Outcomes

- A resilient energy network that offers customers access to a future fuels energy ecosystem that includes hydrogen manufacturing, solar energy, and a close-loop bio-digester.
- Energy solutions that provide lower costs to the end user.
- A fibre and satellite solution that will provide redundancy and support best-in-class IT and Telco solutions.
- A transport and logistics solution providing access to the national rail and coastal shipping networks.
- Hotel, micro-brewery, conference facilities and bespoke industrial-themed accommodation.
- Commercial EV fast charging.
- Secure overnight heavy vehicle parking and on-site security.
